

Dear Mantas

Thank you for the work you did recently in our flat after the flood back in January, which involved repairing and repainting the ceiling in the lounge/kitchen/dining area and bathroom; and relaying the wooden floors and carpets throughout.

I was most impressed with the skill and care that was given to everything, especially the laying of the floor boards. The repair work and painting was excellent too. I am a perfectionist and I believe you are also in that you ensured that the best quality workmanship was provided to carry out this work to the highest standard. I am very pleased.

Kind regards  
Jillian Riddle
