

"Monte Construction helped us complete our dream kitchen working on a number of jobs including fitting oak flooring, skirting boards, doors and architraves, tiling and radiators. Their workmanship in all aspects was first class. Attention to detail and thoroughness was apparent in every task completed. We were also impressed with their professionalism, responsiveness and adaptability. From the start they showed willingness to work within budgets, explore 'out of the box' solutions and give competitive quotes. We would recommend them highly."
